

Insight Compliance

Global non-life (P&C) insurance regulations and taxes at a glance

Businesses today face many challenges; understanding if an insurance programme is compliant globally should not be one of them.

Axco's Insight Compliance helps insurance professionals make sense of the increasingly complex global regulatory landscape. It provides answers to the essential compliance questions that are necessary to know when conducting multinational non-life insurance business.

Reduce the burden of managing multiple data sources with a single, reliable source of consistent regulatory and legislative information from the world's insurance markets, delivered in an intuitive and flexible format. Information is available by line of business, with key subclasses covered and regulatory topics range from taxes and compulsory insurances to non-admitted business and policy conditions.

Intelligence is delivered in a timely and accessible way through Axco's Insight platform that allows you to customise and filter data and then choose to view the information by line of business, market or topic.

Information is verified with Axco's extended network of relationships across the world to

ensure a truly local insight. Intelligence is prepared and maintained by an in-house team of research analysts and supported by industry specialists who meet with local supervisors, insurers, reinsurers and brokers in each market.

Easily add your own content to view alongside Axco intelligence and customise with your branding so that the service looks and feels like part of your business.

Key Benefits

- Access consistent, business-critical compliance information across 170+ markets
- Answers the most frequently asked compliance questions
- Compare compliance information across multiple markets
- View regulation specific to a line of business

Insight Compliance

Business-critical compliance data

Insight Compliance provides an overview of the necessary regulatory and tax compliance conditions applicable to conducting insurance business in over 170 markets. With information such as whether non-admitted business is allowed, details on compulsory insurances and the taxes and charges payable, you can easily understand the requirements of markets you operate or are looking to enter.

Key regulatory and compliance topics include:

- Taxes, tariffs and charges split by insured, insurer and reinsurer
- Compulsory classes
- Non-admitted positions
- Premium currency, collection and reserves
- Policy language and currency
- Local broker requirements

A single, reliable information resource

Insight Compliance answers the most frequently asked questions on local regulatory requirements. It eliminates the need to research, sort, translate and verify multiple sources of regulatory information from source languages, increasing understanding and reducing uncertainty.

Lines of business covered

Accident	Construction and engineering	Goods in transit	Oil and energy
Assistance	Credit	Householder/homeowner property	Product liability
Aviation	Directors' & Officers' Liability	Legal expenses	Professional liability
Business interruption	Employers' Liability	Marine	Sickness
Clinical trials	Environmental liability	Miscellaneous financial loss	Surety
Commercial and industrial property	General liability	Motor	

Frequent updates and regular market visits and ensure that Insight Compliance shows the most accurate, relevant and up-to-date insurance intelligence available.

An interactive database that is easy to use and simple to customise

Insight Compliance is an intuitive, two-step database that quickly provides answers to the compliance questions that matter most. Choose the information you require in the way you wish to view it. Multiple classes and subclasses of business, topics, markets and regions can be compared

Features of Insight Compliance:

- Compare regulatory information side by side for multiple territories and multiple lines of business
- View general information on land size, climate, population and language for each territory covered
- Choose from among major lines of business or a class tree of sub-classes
- Follow a link to the full Axco Insurance Market Report for greater market detail
- Export data to Excel

simultaneously. Data can be sorted by topic or by country and results exported to Microsoft Excel.
